Sin and Confession in Colonial Peru Regina Harrison, 2014-06-01 A central tenet of Catholic religious practice, confession relies upon the use of language between the penitent and his or her confessor. In the sixteenth and seventeenth centuries, as Spain colonized the Quechua-speaking Andean world, the communication of religious beliefs and practices—especially the practice of confession—to the native population became a primary concern, and as a result, expansive bodies of Spanish ecclesiastic literature were translated into Quechua. In this fascinating study of the semantic changes evident in translations of Catholic catechisms, sermons, and manuals, Regina Harrison demonstrates how the translated texts often retained traces of ancient Andean modes of thought, despite the didactic lessons they contained. In *Sin and Confession in Colonial Peru*, Harrison draws directly from confession manuals to demonstrate how sin was newly defined in Quechua lexemes, how the role of women was circumscribed to fit Old World patterns, and how new monetized perspectives on labor and trade were taught to the subjugated indigenous peoples of the Andes by means of the Ten Commandments. Although outwardly confession appears to be an instrument of oppression, the reformer Bartolomé de Las Casas influenced priests working in the Andes; through their agency, confessional practice ultimately became a political weapon to compel Spanish restitution of Incan lands and wealth. Bringing together an unprecedented study (and translation) of Quechua religious texts with an expansive history of Andean and Spanish transculturation, Harrison uses the lens of confession to understand the vast and telling ways in which language changed at the intersection of culture and religion.

The Course of Andean History Peter V. N. Henderson, 2013-08-01 The only comprehensive history of Andean South America from initial settlement to the present, this useful book focuses on Colombia, Ecuador, Peru, and Bolivia, the four countries where the Andes have played a major role in shaping history. Although Henderson emphasizes the period since the winning of independence in 1825, he argues that the region's republican history cannot be explained without a clear understanding of what happened in the pre-Hispanic and colonial eras. Henderson carefully explores the complex relationship between the Andean peoples and their land up until the fall of the Inka Empire in 1532 before addressing the Spanish conquest and the colonial aftermath, emphasizing the syncretism often unwillingly forced upon the original inhabitants of the region. His account of the nineteenth century discusses the attempts of the Andean elite to fashion modern nation-states in

the face of many divisive factors, including race. The final chapters carry the story from 1930 to the present as the Andean countries debated different ways to create a more inclusive and prosperous society.

The Church in Colonial Latin America John F. Schwaller, 2000-03-01 The Church in Colonial Latin America is a collection of essays that include classic articles and pieces based on more modern research. Containing essays that explore the Catholic Church's active social and political influence, this volume provides the background necessary for students to grasp the importance of the Catholic Church in Latin America. This text also presents a comprehensive, analytic, and descriptive history of the Church and its development during the colonial period. From the evangelization of the New World by Spanish missionaries to the active influence of the Catholic Church on Latin American culture, this book offers a complete picture of the Church in colonial Latin America. The Church in Colonial Latin America is ideal for courses in the colonial period in Latin American history, as well as courses in religion, church history, and missionary history.

Reformations Carlos M. N. Eire, 2016-06-28 This fast-paced survey of Western civilization's transition from the Middle Ages to modernity brings that tumultuous period vividly to life. Carlos Eire, popular professor and gifted writer, chronicles the two-hundred-year era of the Renaissance and Reformation with particular attention to issues that persist as concerns in the present day. Eire connects the Protestant and Catholic Reformations in new and profound ways, and he demonstrates convincingly that this crucial turning point in history not only affected people long gone, but continues to shape our world and define who we are today. The book focuses on the vast changes that took place in Western civilization between 1450 and 1650, from Gutenberg's printing press and the subsequent revolution in the spread of ideas to the close of the Thirty Years' War. Eire devotes equal attention to the various Protestant traditions and churches as well as to Catholicism, skepticism, and secularism, and he takes into account the expansion of European culture and religion into other lands, particularly the Americas and Asia. He also underscores how changes in religion transformed the Western secular world. A book created with students and nonspecialists in mind, *Reformations* is an inspiring, provocative volume for any reader who is curious about the role of ideas and beliefs in history.

Colonial Habits Kathryn Burns, 1999 A social and economic history of Peru that reflects the influence of the convents on colonial and post-colonial society.

The Franciscan Invention of the New World Julia McClure, 2016-11-30 This book examines the story of the 'discovery of America' through the prism of the history of the Franciscans, a socio-religious movement with a unique doctrine of voluntary poverty. The Franciscans rapidly developed global dimensions, but their often paradoxical relationships with poverty and power offer an alternate account of global history. Through this lens, Julia McClure offers a deeper history of

colonialism, not only by extending its chronology, but also by exploring the powerful role of ambivalence in the emergence of colonial regimes. Other topics discussed include the legal history of property, the complexity and politics of global knowledge networks, the early (and neglected) history of the Near Atlantic, and the transatlantic inquisition, mysticism, apocalypticism, and religious imaginations of place.

Spaniards in the Colonial Empire Mark A. Burkholder, 2012-11-13 *Spaniards in the Colonial Empire* traces the privileges, prejudices, and conflicts between American-born and European-born Spaniards, within the Spanish colonies in the Americas from the sixteenth to early nineteenth centuries. Covers three centuries of Spanish colonial power, beginning in the sixteenth century Explores social tension between creole and peninsular factions, connecting this friction with later colonial bids for independence Draws on recent research by Spanish and Spanish-American historians as well as Anglophone scholars Includes some coverage of Brazil and British colonies

The History of the Catholic Church in Latin America John Frederick Schwaller, 2011-02-14 One cannot understand Latin America without understanding the history of the Catholic Church in the region. Catholicism has been predominant in Latin America and it has played a definitive role in its development. It helped to spur the conquest of the New World with its emphasis on missions to the indigenous peoples, controlled many aspects of the colonial economy, and played key roles in the struggles for Independence. *The History of the Catholic Church in Latin America* offers a concise yet far-reaching synthesis of this institution's role from the earliest contact between the Spanish and native tribes until the modern day, the first such historical overview available in English. John Frederick Schwaller looks broadly at the forces which formed the Church in Latin America and which caused it to develop in the unique manner in which it did. While the Church is often characterized as monolithic, the author carefully showcases its constituent parts—often in tension with one another—as well as its economic function and its role in the political conflicts within the Latin America republics. Organized in a chronological manner, the volume traces the changing dynamics within the Church as it moved from the period of the Reformation up through twentieth century arguments over Liberation Theology, offering a solid framework to approaching the massive literature on the Catholic Church in Latin America. Through his accessible prose, Schwaller offers a set of guideposts to lead the reader through this complex and fascinating history.

Spanish Peru, 1532-1560 James Lockhart, 1994-01-01 *When Spanish Peru, 1532-1560* was published in 1968, it was acclaimed as an innovative study of the early Spanish presence in Peru. It has since become a classic of the literature in Spanish American social history, important in helping to introduce career-pattern history to the field and notable for its broad yet intimate picture of the functioning of an entire society. In this second edition, James Lockhart provides a new conclusion and preface, updated terminology, and additional footnotes.

The Discovery and Conquest of Peru Pedro de Cieza de Leon, 1999-02-11 Dazzled by the sight of the vast treasure of

gold and silver being unloaded at Seville's docks in 1537, a teenaged Pedro de Cieza de León vowed to join the Spanish effort in the New World, become an explorer, and write what would become the earliest historical account of the conquest of Peru. Available for the first time in English, this history of Peru is based largely on interviews with Cieza's conquistador compatriotes, as well as with Indian informants knowledgeable of the Incan past. Alexandra Parma Cook and Noble David Cook present this recently discovered third book of a four-part chronicle that provides the most thorough and definitive record of the birth of modern Andean America. It describes with unparalleled detail the exploration of the Pacific coast of South America led by Francisco Pizarro and Diego de Almagro, the imprisonment and death of the Inca Atahualpa, the Indian resistance, and the ultimate Spanish domination. Students and scholars of Latin American history and conquest narratives will welcome the publication of this volume.

The Discovery of New Mexico by the Franciscan Monk Friar Marcos de Niza in 1539 Adolph F. Bandelier, 2017-05-23 The story of Fray Marcos and the Seven Cities of Cíbola was a favorite of Adolph Bandelier (1840-1914). Bandelier's combination of methodological sophistication and control of the archival data makes the Marcos de Niza paper important, not only as a landmark in Southwestern ethnohistory, but as a work of scholarship in its own right, with insights on Cabeza de Vaca, Marcos, and early Southwestern exploration that are still valid today.

Spiritual Encounters Nicholas Griffiths, Cervantes, 1999-01-01 Encounters between religions and the resulting questions pertaining to belief and faith are among the most intriguing subjects with which scholars grapple. How do people adjust, accommodate, resist, reinterpret and harmonize different systems of belief? Do religious conversions often mask more worldly concerns such as political power, economic well being, and the ability to control one's destiny? Specifically adopting a cross-hemispheric approach, this volume draws on experiences of religious change principally in hispanophone America, but also in anglophone and francophone America, in order to transcend cultural frontiers, illuminate the circumstances and conditions which determined the form that spiritual encounters took across the hemisphere, and encourage a comparative approach. It will prove invaluable to undergraduates, postgraduates and academics interested in anthropology, ethnohistory, the social history of religion, the history of Christianity and of missions, the history of native religions and the history of colonial America.

The New Latin American Mission History Erick Langer, Robert Howard Jackson, 1995-01-01 The subject of missions-formal efforts at religious conversion of native peoples of the Americas by colonizing powers-is one that renders the modern student a bit uncomfortable. Where the mission enterprise was actuated by true belief it strikes the modern sensibility as fanaticism; where it sprang from territorial or economic motives it seems the rankest sort of hypocrisy. That both elements-greed and real faith-were usually present at the same time is bewildering. In this book seven scholars attempt to create a

new mission history that deals honestly with the actions and philosophic motivations of the missionaries, both as individuals and organizations and as agents of secular powers, and with the experiences and reactions of the indigenous peoples, including their strategies of accommodation, co-optation, and resistance. The new mission historians examine cases from throughout the hemisphere—from the Andes to northern Mexico to California—in an effort to find patterns in the contact between the European missionaries and the various societies they encountered. Erick Langer is associate professor of history at Carnegie Mellon University. He is the author of *Economic Change and Rural Resistance in Southern Bolivia, 1880-1930* and editor, with Zulema Bass Werner de Ruiz, of *Historia de Tarija: Corpus Documental*. Robert H. Jackson is the author of *Indian Population Decline: The Missions of Northwestern New Spain, 1687-1840* and *Regional Markets and the Agrarian Transformation in Bolivia Cochabamba, 1539-1960*. He is an assistant professor in the Department of History and Geography at Texas Southern University.

Ancient Religions, Modern Politics Michael A. Cook, 2016-12-06 Why Islam is more political and fundamentalist than other religions Why does Islam play a larger role in contemporary politics than other religions? Is there something about the Islamic heritage that makes Muslims more likely than adherents of other faiths to invoke it in their political life? If so, what is it? *Ancient Religions, Modern Politics* seeks to answer these questions by examining the roles of Islam, Hinduism, and Christianity in modern political life, placing special emphasis on the relevance—or irrelevance—of their heritages to today's social and political concerns. Michael Cook takes an in-depth, comparative look at political identity, social values, attitudes to warfare, views about the role of religion in various cultural domains, and conceptions of the polity. In all these fields he finds that the Islamic heritage offers richer resources for those engaged in current politics than either the Hindu or the Christian heritages. He uses this finding to explain the fact that, despite the existence of Hindu and Christian counterparts to some aspects of Islamism, the phenomenon as a whole is unique in the world today. The book also shows that fundamentalism—in the sense of a determination to return to the original sources of the religion—is politically more adaptive for Muslims than it is for Hindus or Christians. A sweeping comparative analysis by one of the world's leading scholars of premodern Islam, *Ancient Religions, Modern Politics* sheds important light on the relationship between the foundational texts of these three great religious traditions and the politics of their followers today.

Space and Conversion in Global Perspective, 2014-10-30 *Space and Conversion in Global Perspective* examines experiences of conversion as they intersect with physical location, mobility, and interiority. The volume's innovative approach is global and encompasses multiple religious traditions. Conversion emerges as a powerful force in early modern globalization. In thirteen essays, the book ranges from the urban settings of Granada and Cuzco to mission stations in Latin America and South India; from villages in Ottoman Palestine and Middle-Volga Russia to Italian hospitals and city squares; and from Atlantic slave ships to the inner life of a Muslim turned Jesuit. Drawing on extensive archival and iconographic

materials, this collection invites scholars to rethink conversion in light of the spatial turn. Contributors are: Paolo Aranha, Emanuele Colombo, Irene Fosi, Mercedes García-Arenal, Agnieszka Jagodzińska, Aliocha Maldavsky, Giuseppe Marcocci, Susana Bastos Mateus, Adriano Prosperi, Gabriela Ramos, Rocco Sacconaghi, Felicita Tramontana, Guillermo Wilde, and Oxana Zemtsova.

Coca Prohibition in Peru Joseph A. Gagliano, 1994-09 The first book to provide a historical overview of coca. In tracing the arguments of the participants in the coca debates during the last four centuries, it surveys the role of the leaf in Peru's sociopolitical history, focusing on coca usage as a source of controversy for the policy makers among the coastal elites who have dominated Peruvian politics and economics since the Spanish conquest.
