## Tulus Tahi Hamonangan Tambunan

Introduction to E-commerce Efrain Turban, David King, 2003 For undergraduate-level courses in Electronic Commerce. Written by an academician and a practitioner this text features exceptionally comprehensive yet manageable coverage of a broad spectrum of E-commerce essentials from a global point of view. Extremely user-friendly and practical, it features vignettes, application cases, and real-world cases in each chapter. Perfect for courses where the professor chooses to use supplemental material or in a course where the professor wants a brief book.

**Intellectual Capital Management as a Driver of Sustainability** Florinda Matos, Valter Vairinhos, Paulo Maurício Selig, Leif Edvinsson, 2018-06-23 The objective of this book is to explore the relationship between intellectual capital management and the sustainable development of organizations and society. To do so, it introduces readers to the topic of intellectual capital in the context of several connected entities such as organizations, cities and regions, sharing insights that both reflect the status quo and demonstrate the need for further action. In closing, the book presents practical cases to verify

the impact of intellectual capital management on sustainable and competitive development.

*The Greening of Architecture* Dr A Senem Deviren, Dr Phillip James Tabb, 2014-01-02 This accessible and engaging text is the first to offer a comprehensive critical history and analysis of the greening of architecture through accumulative reduction of negative environmental effects caused by buildings, urban designs and settlements. Describing the progressive development of green architecture from 1960 to 2010, it illustrates how it is ever evolving and ameliorated through alterations in form, technology, materials and use and it examines different places worldwide that represent a diversity of cultural and climatic contexts.

*The Construction Industry* George Ofori, 1990 This basic text offers a comprehensive and fundamental description of the construction industry and the construction process, citing examples from several countries at various stages of development. It considers the features of the industry, describes factors influencing the demand for, and supply of construction, problems facing the industry and ways of planning for and managing its development. The book should be a basic source of information on the construction industry for undergraduate and postgraduate courses in architecture, construction management, quantity surveying, related engineering fields and estate management. It should also be of relevance to administrators of the construction industry.

*Integrated Rural Development in East Nusa Tenggara, Indonesia* Siliwoloe Djoeroemana, 2007 These proceedings report on an international workshop held in Kupang, in April 2006, to identify opportunities and constraints to improving livelihoods in East Nusa Tenggara using an integrated rural development approach, and to discuss directions for future activities.

Advancing the Competitiveness and Efficiency of the U.S. Construction Industry National Research Council, Division on Engineering and Physical Sciences, Board on Infrastructure and the Constructed Environment, Committee on Advancing the Productivity and Competitiveness of the U.S. Industry Workshop, 2009-11-09 Construction productivity-how well, how quickly, and at what cost buildings and infrastructure can be constructed-directly affects prices for homes and consumer goods and the robustness of the national economy. Industry analysts differ on whether construction industry productivity is improving or declining. Still, advances in available and emerging technologies offer significant opportunities to improve construction efficiency substantially in the 21st century and to help meet other national challenges, such as environmental sustainability. *Advancing the Competitiveness and Efficiency of the U.S. Construction Industry* identifies five interrelated activities that could significantly improve the quality, timeliness, cost-effectiveness, and sustainability of construction projects. These activities include widespread deployment and use of interoperable technology applications; improved job-site efficiency through more effective interfacing of people, processes, materials, equipment, and information; greater use of prefabrication, preassembly, modularization, and off-site fabrication techniques and processes; innovative, widespread use of demonstration installations; and effective performance measurement to drive efficiency and support innovation. The book recommends that

the National Institute of Standards and Technology work with industry leaders to develop a collaborative strategy to fully implement and deploy the five activities

**The End of Advertising as We Know It** Sergio Zyman, Armin A. Brott, 2002 The author looks at TV spots, branding, packaging, celebrity spokespeople, sponsorships, publicity and customer service.

**Mission Flats** William Landay, 2013-09-26 A Chief of Police who is looking for a way out...a retired cop...and a murder which reaches back 20 years... The brilliant, award-winning novel from the author of DEFENDING JACOB In a small town in Maine, nothing much happens. Even the Chief of Police, Ben Truman, is thinking about leaving. That is, until he discovers a body in a cabin up by the lake. The dead man turns out to be a Boston prosecutor who had been investigating a series of gang-related murders. When Truman heads to the city to follow the few leads he has on the case, he is not welcomed by the local police - after all, big city crime is not something he has had any experience with. But Truman refuses to let go of the case. With the help of a retired cop, he becomes embroiled in an investigation which reaches back to a killing 20 years ago...

The Strangler William Landay, 2009-11-10 Boston, 1963. A city on the edge. The Boston Strangler has already claimed a dozen victims. For the three Daley brothers, crime is very much the family business but the Strangler's murderous spree is about to bring violent death a lot closer to home: Joe - tough-talking cop whose gambling habits - fast women, slow horses - drag him down into the city's gangland. Michael - Harvard-educated lawyer, tasked to bring the Strangler to justice. Ricky - expert burglar and the devil-may-care youngest son who is used to leading a charmed life. When the Strangler strikes, they will all be forced to look into their family's own lethal secrets and the one death in the past that has changed them forever...

*The Hidden Crisis*, 2011-01-01 When wars break out, international attention and media reporting invariably focus on the most immediate images of human suffering. Yet behind these images is a hidden crisis. Across many of the world's poorest countries, armed conflict is destroying not just school infrastructure, but the hopes and ambitions of generations of children. The hidden crisis: Armed conflict and education documents the devastating effects of armed conflict on education. It examines the widespread human rights abuses keeping children out of school. The Report challenges an international aid system that is failing conflict-affected states, with damaging consequences for education. It warns that schools are often used to transmit intolerance, prejudice and social injustice. This ninth edition of the Education for All Global Monitoring Report calls on governments to demonstrate greater resolve in combating the culture of impunity surrounding attacks on schoolchildren and schools. It sets out an agenda for fixing the International aid architecture. And it identifies strategies for strengthening the role of education in peacebuilding. The Report includes statistical indicators on all levels of education in more than 200 countries and territories. It serves as an authoritative reference for education policy-makers, development specialists, researchers and the media
