Civilizations Past and Present, Volume 1, Books a la Carte Edition Robert R. Edgar, Neil J. Hackett, George F. Jewsbury, Barbara Molony, Professor of Middle East and Islamic History Matthew S Gordon, 2010-07-06 For today's busy student, we've created a new line of highly portable books at affordable prices. Each title in the Books a la Carte Plus program features the exact same content from our traditional textbook in a convenient notebook-ready, loose-leaf version - allowing students to take only what they need to class. As an added bonus, each Books a la Carte Plus edition is accompanied by an access code to all of the resources found in one of our best-selling multimedia products. Best of all? Our Books a la Carte Plus titles cost less than a used textbook! Civilizations Past and Present, written by specialists in Islamic, African, Asian, Ancient, and East European history - offers a clear and accessible analysis of diverse trends shaping world history. Civilizations Past and Present, now in its Twelfth Edition, is a survey text well known for its readability, offering a strong narrative exploration of world history. The book's narrative-enriched by photographs, maps, primary source documents, timelines, and other pedagogical aids-places great emphasis on the connections between the world's many cultures and regions. The book uses intriguing avenues of historical interpretation and examines all of the major areas of historical study:
social, political, economic, religious, cultural, and geographic.

**Magic in the Middle Ages** Richard Kieckhefer, 2021-09-09 A revised and expanded edition of this fascinating interdisciplinary study of magic in the Middle Ages.

**Western Civilizations** Joshua Cole, Carol Symes, 2017 The most pedagogically innovative text and media for the western civilizations course—now more current, more global, and more interactive. The balanced narrative in Western Civilizations has been bolstered with new and current scholarship—highlighting new environmental history, more coverage of Central and Eastern Europe, and increased coverage of European and Muslim relations—making it the most up-to-date and relevant text for students. In addition, Cole and Symes have enhanced their pedagogically innovative text with new History Skills Tutorials, Interactive Instructor's Guide, and Norton InQuizitive for History, making the Nineteenth Edition a more interactive and effective teaching and learning tool.

**1066** David Howarth, 2002 While the date 1066 is familiar to almost everybody as the year of the Norman conquest of England, few can place the event in the context of the dramatic year in which it took place. In this book, David Howarth attempts to bring alive the struggle for the succession to the English crown from the death of Edward the Confessor in January 1066 to the Christmas coronation of Duke William of Normandy. There is an almost uncanny symmetry, as well as a relentlessly exciting surge, of events leading to and from the Battle of Hastings.

**Trajectories of State Formation across Fifteenth-Century Islamic West-Asia** Jo Van Steenbergen, 2020-06-15 The concept, practice, institution and appearance of ‘the state’ have been hotly debated ever since the emergence of history as a discipline within modern scholarship. The field of medieval Islamic history, however, has remained aloof from most of these debates. Rather it tends to take for granted the particularity of dynastic trajectories within slow-changing bureaucratic contexts. Trajectories of State Formation promotes a more critical and connected understanding of state formation in the late medieval Sultanates of Cairo and of the Timurid, Turkmen and Ottoman dynasties. Projecting seven case studies onto a broad canvas of European and West-Asian research, this volume presents a trans-dynastic reconstruction, interpretation and illustration of statist trajectories across fifteenth-century Islamic West-Asia. The contributors are: Georg Christ, Kristof D’huister, Jan Dumolyn, Albrecht Fuess, Dimitri J. Kastritsis, Beatrice Forbes Manz, John L. Meloy, Jo Van Steenbergen, and Patrick Wing.

**The Christianization of Ancient Russia** Unesco, 1992

**Religion and Literature: History and Method** Eric Ziolkowski, 2019-12-16 Religion and Literature: History and Method considers the history, methods, institutionalization, globalization, and future of the study of religion and literature, focusing on its emergence from the “field” of theology and literature, and its relations to myth criticism and biblical reception.

**Western Civilizations, Brief 5th Edition (Volume 2)** Joshua Cole, Carol Symes, 2020-01-17 With new scholarship and
learning tools, this #1 text is more innovative than ever

**Values in Islamic Culture and the Experience of History** N. S. Kirabaev, Iurii Mikhailovich Pochta, 2002

**Orientalism** Edward W. Said, 2014-10-01 A groundbreaking critique of the West's historical, cultural, and political perceptions of the East that is—three decades after its first publication—one of the most important books written about our divided world. Intellectual history on a high order ... and very exciting. —The New York Times In this wide-ranging, intellectually vigorous study, Said traces the origins of orientalism to the centuries-long period during which Europe dominated the Middle and Near East and, from its position of power, defined the orient simply as other than the occident. This entrenched view continues to dominate western ideas and, because it does not allow the East to represent itself, prevents true understanding.

**The Economic Consequences of the Peace** John Maynard Keynes, 2022-05-09 The Economic Consequences of the Peace - John Maynard Keynes - The Economic Consequences of the Peace (1919) is a book written and published by the British economist John Maynard Keynes. After the First World War, Keynes attended the Paris Peace Conference of 1919 as a delegate of the British Treasury. In his book, he argued for a much more generous peace, not out of a desire for justice or fairness – these are aspects of the peace that Keynes does not deal with – but for the sake of the economic well-being of all of Europe, including the Allied Powers, which the Treaty of Versailles and its associated treaties would prevent. The book was a best-seller throughout the world and was critical in establishing a general opinion that the treaties were a Carthaginian peace designed to crush the defeated Central Powers, especially Germany. It helped to consolidate American public opinion against the treaties and against joining the League of Nations. The perception by much of the British public that Germany had been treated unfairly was, in turn, a crucial factor in later public support for the appeasement of Hitler. The success of the book established Keynes' reputation as a leading economist, especially on the left. When Keynes was a key player in establishing the Bretton Woods system in 1944, he remembered the lessons from Versailles as well as the Great Depression. The Marshall Plan, which was promulgated to rebuild Europe after the Second World War, was similar to the system proposed by Keynes in The Economic Consequences of the Peace.

**Western Civilization to 1715** Jackson J. Spielvogel, 2005 Best-selling text, WESTERN CIVILIZATION has helped over one million students learn about the present by exploring the past. Jack Spielvogel's engaging, chronological narrative weaves the political, economic, social, religious, intellectual, cultural, and military aspects of history into a gripping story that is as memorable as it is instructive. Each chapter offers a substantial introduction and conclusion, providing students a context for these disparate themes. The clear narrative of a single gifted author makes it easy for students to follow the story of Western civilization. Spielvogel gives the book depth by including over 150 maps and excerpts of over 200 primary sources--including official documents, poems, and songs--that enliven the past while introducing students to source material

Rethinking Modernity G. Bhambra, 2007-04-11 Arguing for the idea of connected histories, Bhambra presents a fundamental reconstruction of the idea of modernity in contemporary sociology. She criticizes the abstraction of European modernity from its colonial context and the way non-Western others are disregarded. It aims to establish a dialogue in which others can speak and be heard.

Religion and Power Nicole Maria Brisch, 2008 This volume represents a collection of contributions presented during the Third Annual University of Chicago Oriental Institute Seminar Religion and Power: Divine Kingship in the Ancient World and Beyond, held at the Oriental Institute, February 23-24, 2007. The purpose of this conference was to examine more closely concepts of kingship in various regions of the world and in different time periods. The study of kingship goes back to the roots of fields such as anthropology and religious studies, as well as Assyriology and Near Eastern archaeology. More recently, several conferences have been held on kingship, drawing on cross-cultural comparisons. Yet the question of the divinity of the king as god has never before been examined within the framework of a cross-cultural and multi-disciplinary conference. Some of the recent anthropological literature on kingship relegates this question of kings who deified themselves to the background or voices serious misgivings about the usefulness of the distinction between divine and sacred kings. Several contributors to this volume have pointed out the Western, Judeo-Christian background of our categories of the human and the divine. However, rather than abandoning the term divine kingship because of its loaded history it is more productive to examine the concept of divine kingship more closely from a new perspective in order to modify our understanding of this term and the phenomena associated with it.
